HE WHO SERVES

He has not served who gathers gold, Nor has he served whose life is told In selfish battles he has won, Or deeds of skill that he has done; But he has served who now and then Has helped along his fellow men.

The world needs many men to-day-Red-blooded men along life's way, With cheerful smiles and helping

hands
And with the faith that understands
The beauty of the simple deed
Which serves another's hour of need.

Strong men to stand beside the weak, Kind men to hear what others speak, True men to keep our country's laws And guard its honor and its cause; Men who will bravely play life's game, Nor ask rewards of gold or fame.

THE ARGUMENT THAT WON THE ATHEIST

A minister had delivered a course of addresses on infidelity, and as time went on he was delighted to find that a certain atheist was anxious to unite himself with the church, "Which of my arguments did you find the most convincing?" asked the minister. "No argument moved me," was the reply, "but the manner of an old blind woman who eits in one of the froat rows. I supported her one day as she was groping along, and, putting out her hand to me, she asked, "Do you love my blessed Saviour?" The look of deep content, her triumphant tones, made me realize as never before, that He who could suffice to make one so belpless bright and glad, must be a blessed Saviour indeed."

THINK OVER

Without courage there cannot be truth; and without truth there can be no other virtue.

The business of life can become so holy that the spiritual life may eat of it as a sacrament, and charity may strike the richest water out of its rugged rocks.

My are we forever running after things that gratify the senses of the body? This is what brute beasts do. Is there, then, no difference between them and us?

NEED OF CONFESSION

"If we confess our sins, He is faithful and just to forgive us our sins."

I John 1: 9.

I John 1: 9.

One day a man found some boys wading in a lake. One boy had cut his heel on a broken bottle. The man got a clean dressing near by, and was binding up the heel when another man passing exclaimed, "That wound will not heal until the dirt is taken out." So it is with the wound of sin. God does not heal it till it is cleansed by confession.

WHAT

Does God think of You?

His Estimate Settles Your Fate for Eternity By the Late Colonel John Dean

"I will say to my soul, Soul, thou hast much goods laid up for many years; take thine ease, eat, drink, and be merry. But God said unto him, Thou fool, this night thy soul shall be required of thee."

COD deals with men both in persons and in communities. A man's estimate of his fellow's character is always imperfect. The estimator is himself imperfect. He is either biased against or influenced mator is numser imperied. He is citizer mased against of inductive by some partiality in his judgment. God alone is the true Appraiser of what human beings are either as single units or companies, as nations or empires. His estimates are always correct.

The words at the top of this article were used by Jesus Christ. They comprise a declaration of the character of a man who acted in certain ways, and the lesson intended to be conveyed is that all men

and all women are fools who act in the same way.

There is the fact that the man was a fool. There is also the exhibition of his folly, and there is dramatically set forth the result

His folly consisted in giving all his attention to bis material goods It is folly consisted in giving all his attention to his material goods—spending all his time in acquiring them, then scheming how to retain them, and trusting in them for present and future happiness. He counted on the quantities—"much goods." He felt they would last a long while—"many years." And he consoled himself that in these abounding goods he could be at rest—"take thine ease." MAN OWNS HIS SOUL

It is remarkable that this man recognized he had a soul—"I will say to my soul." But what a poor idea be had of his soul that it could be satisfied by material goods—eating and drinking, and rest. What a type he is of so many who seem to live only for the gratification of their senses and never seem to understand the nature of their soul, but think the whole of life is made up in eating and other bodily

This was characteristic of the people who lived in the days of Noab and Lot. They ate and drank and knew not until the flood (and free came and took them all away. The coming end will be dis-tinguished by the same phenomena. "Lovers of pleasures more than lovers of God" will be the universal mode of the race.

There are several features in which the fool exhibited his folly. He expressed no recognition of God's providence. In vain were the rain, the sunshine, the heat and the cold to instill in his mind any idea of the Giver of all good. There was in him no observation of the mighty machine in action to germinate and develop the seed sown and to make it ripen. It is written in another place, "The fool hath said in his heart, There is no God." This man expressed it in his speech and in his conduct.

Consequently he admitted no claim of a generous Father, "who maketh His sun to rise on the evil and on the good, and sendeth rain on the just and on the unjust." There was no utterance of gratitude or harvest thanksgiving, nor did he feel any obligation to offer tithes. This man's conduct was independent, and was the embodiment of infidelity and atheism. God was not in all his thoughts.

EAT, DRINK AND BE MERRY

What a pattern this man is of the many who attribute their well-

being to their own credit, and who plan their future satisfaction without God. How short-sighted men are, with ten thousand indications around them that life is only a brief time. They plan as if they are going to live forever—"much goods . . . many years . . . take thine ease . . . eat, drink, and be merry." They do not like the song breaking in on their festival, "Life's morn will soon be waning, and its evening bell will toll." With them it is on with the pleasure and dance till they suddenly fall into Hell . . . aud what then?

It is well to consider some of the effects of the fool's folly.

It moved a benevolent God to an action of judgment. The fool as suddenly called to account, and he learned the guilt of his folly when too late to rectify the wrong.

Does it occur to the reader of this story that it is given as an

object-lesson and should be well thought out? There is a point which the mercy of God will not pass. When all the tokens of His favor are despised He will suddenly enter judgment and pass the irrevocable

At such a time He fixes the character forever, and the fool on earth becomes a fool for eternity.

BELIEVE IN YOURSELF

If you consider yourself a worm of the dust, you must expect people to trample on you. If you make a doormat of yourself, people are sure to wipe their feet on you.

More men fall through ignorance of their strength than through knowledge of their weakness.

You may succeed when others do not believe in you, but never when you do not believe in yourself.

The curiosity of hlm who wishes to see fully for himself how the dark slde of life looks is like that of the man who took a torch into a powder mill to see whether it would really blow up or not.

On Thursday last one seeker came forward, and on Sunday we rejoiced to see four volunteers to the front. Praise God for the indication we have that many are earnestly seeking Sal-

vation.

We are experiencing much power and blessing in our meetings and souls are being converted to God, three persons in one family having come during the past two weeks. Last Thursday one 1. ker came forward and on Sunday four more sought the Saviour, all of which leads us to feel that the spirit of revival is in our midst.

The last weekend meetings at the Citadel were of a real profitable character, and especially the Sunday night meeting will not soon be forgotten by those privileged to attend. On Saturday night one young man, an ex-Salvationist, returned to the Lord. The following morning Envoy Neil spoke on "Victory through Faith." For the evening meeting we were delighted to have a visitor from a distant land in the person of Adjutant Hepper, who is the C. O. in charge of The Temple Corps, Brisbane, Australia. In a powerful address at night he held the crowd's undivided attention, and his final appeal was answered by five volunteers making their way to the Mercy Seat. We will long remember the visitor from "down under," for he left a chorus with us that will keep us singing for many a day: "For there is one God and One Mediator twixt God and Man."

WINNIPEG Citadel Band and Song-WINNIPEG Citadel Band and Songwaters put up one of their best
musical feativals on St. Patrick's
night. The event had been well announced, and in consequence an excellent crowd of people gathered. The
program, tastefully printed in green,
contained a number of Irish songs,
chief amongst them being a stirring

some of them constraints and suffering from the reaction of a very good time.

The Band usually manages to put on something extra in connection with the St. Patrick's Festival, but this year they certainly provided a sensation. This is how it happened. The Band strack up the march "Fighting Soldiers." It was a case of Fresto, and those acquainted with the march wondered how the cornets would figure in the embellishment of the finatheme. Then the sensation. The Bandmaster stopped the Band, and Bandsman Jack Webster, looking for all the world as mad as a hatter called out: "We are playing too fast." Sharp talk ensued, and while everybody in the audience was more or less breathless with astonishment, the Band. Jack Webster, however, between the Bandmaster re-started the Band. Jack Webster, however, the Webster is instrument, looking as though he wanted to say something. Then he walked over to the hass frombone player, said a word or two, then left the platform, knocking over stands and generally creating a disturbance. The epidemic spread, and then to completely stop the music and to leave the Bandmaster beating the air, soveral men came hack and carried the drummer from the platform.

Talk about a sensation! It was cer-

Talk about a sensation! It was certainly this. The Irish chairman rose to his fect, and cleared up any fears entertained by inose present by stating: "What you have just now witnessed, dear friends, is what might happen any time if a Bandsman permitted the Irish streak in him to run riott" Then the herees returned, and fully merited the spirited applause which greeted them.

For many years I have had the privilege of assisting in the conducting of the Prayer Meetings at Regent Hall and have witnessed some of the most remarkable cases of conversion that have ever taken place in The

On account of my numerous years of service and the heavy list of engagements one has to fulfil, which necessitates continual sacrifice of home, business, and money, of late years I have been tempted to 'ease off,' but the joy and fascination of seeing men and women born again at the end of a Sunday's campaign has played no small part in helping me to combat the temptation, and I am still at it after nearly forty years of strenuous Band work.

THE GREAT CALL

"Tis Jesus Calling-"Old-time chums were the Band Sergeant's wife and Winifred; Juniors, too, and Company Guards until sickness laid the one aside.

By the time the Band Locals had rived the women had made many plans, all concerning the other Bandsmen's wives; and in thinking of these and in studying prayerfully how to bless them each and all, they had found joy in what had seemed to be only sorrow.

Our Wives God Bless Them!

Tom went off to his Band practice, whistling a snatch from the latest march which he proposed to tackle that night, and Winifred, his wife, sitting by the fireside when he had left her, smiled wanly.

She was a delicate woman, this Eandmaster's partner, and she had many of those queer fancies which sometimes come to semi-invalids. For example: she was not proud of the fact that The General's Commission which Tom held gave him full control of an excellent company of devoted men. No, she was jealous of the Eand, and she resented the claims which it made upon her husband's time and interest. Nevertheless, because Tom was happier the busier he was, she sent him off with a kiss and that wan, white smile.

And the Bandmaster, all unconscious of the longing which seemed to Winifred to pervade all space about her, laboured mightily with the march in the new Journal and was, indeed, happy.

The 'Breather'

The Breather'

The Breather

"Just for a minute or two we will take a breather," said Tom, midway through the practice, "and we will fill in the interval by having a word of prayer. The Band Sergeant will lead us!" So they knelt together, and the Local mentioned began to supplicate that God would bless the Bandsmen and make the music clear to each, and that it might be used, in public, to the Salvation of men. Then he paused a moment, and when he proceeded again the subject of his petition had quite changed.

"Forgive our remissness, O. Lord," he urged; "and bless our wives as they sit at home!" A thrill ran through the little company, and a sudden "Amen!" sprang from the hearts of the married men. A brief interval unbroken, and then—

"Have the Bandmaster's wife in Thy keeping," he continued, "as she suffers in silence and solitude. Send her someone to comfort her at this moment." A sob burst from the Bandmaster, and a deep stillness settled quickly on the kneeling circle and no man spoke or stirred while the clock on the wall ticked ten times, and the boom from the Town Hall tower announced that it was two hours short of midnight.

tween the people of Pulteney and the people of Wick, and annually reached its climax at the great New Year's Eve bonfire held at Pulteney town. The flaming staves of barrels were used to beat off the Wickites, and in many cases serious injuries were inflicted on any intruders from the other side of the bridge. Now all is happily changed, and a huge Salvation Army Open-Air, held on the ground of former combats, scaled the compact of friendship, and buried, let us hope for ever, the hatchet of hatred.

This Open-Air service was held as the first hour of 1922 dawned. It was attended by several hundred Converts, and listened to attentively by 1,500 people. The only illuminant was the huge bonfire, and as the songs of Salvation and burning words of testimony went forth from Wickites and Fulteneyites in turn, it was felt that they all had become one in Christ Jesus.

Out of the eleven members of one of the senior football teams at Wick, seven have become converted, the last to yield being the goalkeeper.

China

Ensign Harris, who has charge of a Corps in Peking, has written of some stirring incidents in connection with her work.

with her work.

"We have some trophies of grace here," she says, "among them the old Color Sergeant, who once murdered a man in a drunken brawl. Several have been reckless gamblers. One of the recent Converts used to earn his living by making paper horses, rickshaws, paper money, and other things to burn for dead men's soula.

shaws, paper money, and other things to burn for dead men's souls.

In China many of the non-Christian people purchase full-size paper and cardboard models of anything of which they imagine their dead relatives or friends to be in need, and burn them, believing that they go into the spirit world to be at the disposal of the departed. In Peking these models are to be seen for sale in undertakers' shops.

"A few days after this man's conversion he came to us in great trouble. He realized that he would have to discontinue his previous occupation, and had no other means of supporting his wife and children. The Lieutenant and I advised him to leave the business and step out on faith. He did so, and for some weeks made paper toys, which he sold in the streets. He thus earned hardly sufficient to provide food, yet he remained true, and never returned to his more lucrative occupation, in which he has proved himself invaluable."

LOST

Lost is a very significant word. In it is much sadness, disappointment, heartache and woe. The variety of lost things advertised for in this morning's paper are watches, furs, purses, money, dogs, automobiles, boys, girls, men, women, husbands, wives, sons, daughters, fathers and mothers. Time, opportunity, reputation, character and virtue are some of the valuable things not found in the left and wiscing column. But the coddet found in the lost and missing column. But the saddest loss of all is the loss of one's soul. "What shall it profit a man if he gain the whole world and lose his own soul?" "For the Son of Man is come to seek and to save that which was lost."

Their Imperial Majesties, the Emperor and Empress, have again gracionsly granted a donation of 1,000 yen to our Social Funds, this engrous first found with a promise of a similar sum each year for ten years.

Constitution Day was celebrated on February 18th, and the Home Secretary sent a grant of 3,000 yen for hospital and labor bureaux work. With part of this money an X-ray supprartus is being purchased for use at our Hospital for Poor People in Tokyo, and the balance is being utilized for the other purpose mentioned.

In this connection the Commissioner Larsason has rein in consideration of the way. Eight Corps have been established in the Republic, and others are shortive to be opened. Five of the Halls in use by the Corps are The Army's own property. Two Slum Posts are also in operation. A Rescue Home with accommodation for thirty-five and a Home for unmarried mothers have been opened in the capital. In addition there are two Children's Homes for the care of fifty orphans. Of the Officers and employees in the country two-thirds are Czechs. The foreign Officers include Comrades from England, Finland, Sweden, Denmark, United States, Bulgaria, Montenegro and the Baltic Provinces. The Czech Officers are naturally placed at some disadvantage when compared with their Comrades from countries where The Army has been longer in being. They are younger in experience of the Organization, and have not had the benefit of extensive training; moreover, all that many know of The Army is what they see of it in their own land. Commissioner Larsson is confident, however, that soon the Republic will produce Officers as capable as those found in any other country.

capable as those found in any other country.

The people generally of the country are lamentably ignorant of spiritual things, and when converted have to be carefully trained and nurtured for God. The Soldiers, who are enthusiastic for God, have not yet the advantages of reading Army literature, apart from "The War Cry," which under the title of "Prapor Spasy" is published fornightly, and is sold zealously by the Converts, one of whom disposes of 1,000 copies of each issue. "War Cry" Brigades visit the restaurants and drinking places to distribute the printed message.

WEDNESDAY THE 29TH

In Winnipeg Citadel, on Wednesday evening, March 29th, the Comissioner will conduct a meeting which will take the form of a welcome to three distinguished Salvation Army personages: Mrs. Commissioner Sowton, Commissioner Bates, Auditor General, and Colonel Hipsey, International Auditor. Mrs. Sowton, who has been on a visit to her son, Captain Charles, who is stationed at Medicine Hat, is well known and much loved by Comrades in the West, and Winnipeg Salvationists have heard with pleasure that arrangements have been made for her to stay in the city for at least one night on her way back to foother.

least one night on her way back to Toronto. The visit of Commissioner Bates and Colonel Hipsey is more official in character, and has to do with money received, money dispensed and money greatly needed. We bid them welcome!

TERSITIES

Impressive Meetings in Moose Jaw, Regina and Brandon. -

Civic Welcome

What proved to be the outstanding feature of the day was the afternoon meeting in the Allen Theatre. This spacious building was taxed to its at fullest capacity to listen to the Commissioner's lecture on "South Africa and her People." Mayor Dunn, the Chairman, welcomed our Leader on Chairman, welcomed our Leader, with the Chairman of the City. He was supported by over thirty leading business men.

Following the preliminaries and a fitting acknowledgement of the welcome accorded him, our Leader, with characteristic fervor, launched into his electure. For over an hour the audience listened attentively to a comper Shensive survey of conditions in all departments of South Africa was put on the map as far as many people of the Mill City were concerned.

Memorable Opportunity

Memorable Opportunity
At 7 p.m. another large company of people gathered in the Allen Theatre. This presented our Leader with a memorable opportunity to tell the people of God and of His great scheme of Redemption.

In response to his appeal a number, whose conscience had been awakened, decided for Christ.—At the conclusion of the prayer meeting the Commissioner gathered the Soldiers together and gave them a further word of counsel urging them to keep The Flag Riying high.

Monday dawned and with it came various duties: the inspection of Army property, the writing of letters, and in the afternoon the Commissioner addressed the Rotary Club. In connection with this event over one hundred of the leading business men of the city gathered at the Royal George Hetel and spent, as the chairman remarked at the conclusion of the Commissioner's address "A profitable hour."

After a busy afternoon the Commissioner, accompanied by Brigadder Whatley and Ensign Mundy, boarded the train bound for Regina where further engagements awaited him. As the train pulled out of the station and the Commissioner was wishing Adjt. Otway "good day" someone heard him make mention of his visit in a most enthusiastic manner, and also overheard a promise which he made of another visit—for a longer period—in the not distant future. The train pulled away. The busy week-end was a thing of the past. Another victory had been achieved in the interest of the Kingdom. Hallelujah!

The Comrades were anxious to testify and to recount triumphs. How encouraging it was to hear of the victories gained by young and old. Surely God was in this place. The Songsters sang with feeling and power, the Band played a rousing March and the whole building seemed charged with spiritual fervor. The joy-bells were ringing merrily!

The Commissioner poured out his heart upon these Comrades. He spoke of the Spiritual awakening in North Scotland, and told of how it had come about, and thereby showing how God uses the weak things of the world to confound the mighty. It was a blessed season indeed, and at the close several Comrades came forward and offered themselves upon the Altar of Service.

In Wheat City

In Wheat City

Leaving Regina on Monday the Commissioner and party arrived the following morning at the Wheat City of the West—Brandon. Here they were met by the Divisional Officer—Staff-Captain J. Habbirts and were soon plunging into Divisional Inspectional affairs. At night our Leader conducted an inspiring public meeting, Many spoke of God's dealing with them, as the Chief Secretary led a rousing testimony period. The Band rendered in its usual able manner, a fitting selection, and Ensign Mundy sang one of Adjutant Cox's latest compositions, entitled "Fishers of Men."

The singing of the refrain by the congregation produced a solemnizing effect.

The Commissioner made a powerful
appeal and his earnest message was
not fruitless. At the conclusion twelve
seekers knelt at the Mercy Seat, including Backsliders and those who felt
the "Call" as the men of old did by the
Sea of Galilee. In the words of
Adjutant Cox's song:

They left their nets when they heard

His voice,
Making the Master's Call their
choice,
o toil with Him for a world astray,
And lead men back to The Father's way.

This service completed the long list of public engagements during the month's tour. What a scene to close with! Comrades rejoicing, joining hands and giving vent to their joy in a Hallelujah dance, in which oven Brigadier Sims was a participant. Thus ended the last but In no wise the least of the meetings associated with the tour.

Campaign Finale

Campaign Finale

The following day brought its own duties. At the completion of the Divisional Inspection our Leader visited the Children's Home where Adjutant Horwood and Lieutenant Milburn are busily engaged mothering twenty-five children. At the end of this further inspection, the Commissioner and party boarded the train bound for Winnipeg. What a month it had been! The miles traversed, the lives touched, and best of all the souls won for Christ and His cause through our Leader's indefatigable labors in his quest after the lost and wayward. In our next issue will appear a summary of the whole tour gleaned from the Private Secretary's Diary.

Chief Secretary's Notes

WE resume the notes after our WE resume the notes after our journeying to and from the Pacific Coast, visiting all the Divisional Centres and other points between Winnipeg and Victoria. It can be said to have been a campaign full of interest and profit to all concerned. Lots of work! Plenty of variety! There is no monotony when one is busy with the Master's business, backle extrain. There busy with the that's certain.

Busy Days

The Territorial Commander and his Staff made eighteen Divisional, Social and Corps Inspections during the past month, with Y. P. Days sandwiched in. Then there were public gatherings, week-days and Sundays, conferences with Government officials at Edmonton, leading citizens met and interested in our work, and so forth. We are back again at the centre, full of "pep" to deal with well-filled baskets of urgent husiness. of "pep" to dear with wa kets of urgent business.

International Visitors

Commissioner Bates and Colonel Hispey are expected in Winnipeg this week and will give their particular attention to the audit of Salvation Army accounts and other important business. The Commissioner is a great traveler and few have covered the globe more often than he.

Mrs. Commissioner Sowton

Mrs. Commissioner Sowton Mrs. Commissioner Sowton win pass through Winnipeg on her return to Toronto after visiting her son, Captain Charles Sowton, in Medicine Hat. She will break her journey and participate in a meeting in Winnipeg.

Fair Australia

Adjutant Hepper from Australia called at T. H. Q. this week. We were pleased indeed to see him. He left Winnipeg on Monday night for the South. On Sunday he was present at Winnipeg I Citadel and conducted the afternoon and evening meetings.

Self Denial is the topic! Divisional Officers and others we have seen, are enthusiastic for the success of the same. Winnipeg is no exception. We find here lined up an excellent body of Business Men who have decided to give and collect, and the outlook at the Centre is very bright.

THERE has been considerable interest and satisfaction expressed at the promotion of Colonel J. B. Laurie to the rank of Commissioner and his appointment to be The General's Secretary. The new Commissioner was originally engaged in the Trade Sales Department at Manchester.

er was originally engaged in the Trade Salea Department at Manchester.

Commissioner Laurie is a man of genius, for he has an infinite capacity for taking pains. I knew him intimately when he was Chief Secretary at Whitechapel Road and later when he became Governor of the City Colony and Hadleigh Land Colony. As Chief Secretary to Mrs. Booth during her period as British Commissioner, he showed himself loyal, capable and absolutely reliable.

LONG SERVICE MEN Colonel Bich, the new Fritish Chief Secretary, and Colonel Langdon, the British Field Secretary, both are long service men with sound records in the British Field Secretary, both are long service men with sound records in the British Field. Colonel Langdon, when first I met him, was Adjutant in charge of the Clapton Congress Hall. He is a real product of Salvation Warfare, coming out of a tiny fishing village on the British Channel. He is not a man of fireworks, but a solid builder. He is absolutely believed in by the British Salvationists wherever he has held any position, while Field Officers who have served under him in the various Divisions he has commanded, are full of his praises.

WONDERFUL CONVERSIONS The record of wonderful conver-

Officers who have served under him in the various Divisions he has commanded, are full of his praises.

WONDERFUL CONVERSIONS
The record of wonderful conversions with actual proofs of changed lives as reported in letters I see from time to time from various Officers continues to enthuse me with firm. confidence in our Army's work. Here is a man who gets converted and at once pays for a suit of clothes he had 16 years ago and never before paid for! Another man returned to his wife and family whom he had deserted months before. At another Corps five members of the town band were the neitent Form one weekend. A waman has brought her husband and four children to The Army Mercy Seat since her conversion a fortnight ago. A man converted through a Musical Service in Gaol came to The Army on his release and testified; his wife is now a Salvationist also. A faithful Local Officer, ever since her childhood, has prayed for her parents, both of them being godless and drunkards. Last week she brought them to the Mercy Seat! In the same meeting two Band boys led their fathers to the Penitent Form!

MEASURE OF INFLUENCE It seems almost impossible to believe that before you will have received this The General will have responsibilities of The Army before The Founder's promotion to Glory and how steadfastly he kept in the background in those days, will understand that old Salvationists find it difficult to think of him as nearly seventy. If and when we are able to find out the exact measure of influence each one of us exert in The Army, we shall all take a back seat ompared with our General, who put in such excellent foundations amongst the young people when he was still affectionately known to us all as "The Chief."

APPRECIATION

Mrs. Colonel John Dean desires through the War Cry to express her most sincere appreciation for the many mesages of sympathy by wire and through the mail, which have reached her since the promotion to Glory of the Colonel.

It is impossible to reply to all these personally, and she asks her Comrades to kindly accept her deep gratitude.

London Letter TO LOVE IS TO GIVE

'Of every man that giveth willingly with his heart ye shall take my offering'

Think of all that Jesus Christ has done for You, and measure what You are doing for Him The result may surprise You!

NE of the impressive features of spiritual history is the sus-tained principle of giving to the Lord. It makes itself evident in the sacrifices of Cain and Abel, and runs through the Bible In the sacrinces of Cain and Adei, and runs through the Abert to the days of the Apostles, who gave their lives in His service and their substance for the feeding of His children. In some places this spirit of giving is obscured, but this only demonstrates the truth that in proportion to the sincerity of God's people is the amount of their practical service for Him.

THE PRINCIPLE OF GIVING

The children of Israel, vague as their conception of God appears to have been, gave of their silver and gold, fine linen, skins of rams and porpoises for the finishing of the first House of God mentioned in Sacred Writ. The Levitical Law called for gifts in proportion to the resources of the givers. The chronicles of the conquest of Canaan, and of the pre-Messianic history of the Chosen People, refer on every page to practical gratitude displayed in return for the guidance of God. With the advent of Jesus Christ, the reign of Love began, and the principle of giving has become more and more marked as His teaching is more clearly understood.

A FUNDAMENTAL INSTINCT

Reciprocity is one of the fundamental instincts of life. The dog returns affection for kindness, and, knowing no other law, viciousness for cruelty. The man who returns evil for good has sunk so low that the common instincts of his nature are corrupted by sin. When love enters the sunk so low that the common instincts or his nature are corrupted by sin. When love enters the heart the reciprocal instinct is reinforced, until it becomes a ruling passion, over-riding all the less noble traits of character. No purer joy can possess the heart of man than that which accompanies the giving of himself for the object of his affection. History is illuminated with countless gleams of love which has shown itself in self-sacrificing gratitude. When Love takes possession of the soul Renunciation leaves the sphere of disciplined Effort and enters that of burning Desire. To love is to give. The receiving back again follows as a beautiful result of the primary act of

ESSENTIAL TO CHRIST-LIFE

For these two reasons, giving unto the Lord is an essential part of the Christ-life: (1) We give in return for all He has done for us. (2) We give because our love cannot refrain from thus demonstrating itself. There is probably in The Salvation Army a greater number of people to whom the first reason is an overwhelming impulse towards generous giving to God's work than in any other organized body in the world.

"There was a certain creditor which had two debtors; the one owed 500 pence, and the other fifty. And when they had nothing to pay he frankly forgave them both. Tell Me, therefore, which of them will love him most? Simon answered and said, I suppose that he to whom he forgave most. And He said unto him, Thou hast judged rightly.'

THE MAN WHO RETURNED

Not long ago a young Jewish lad entered one of The Army's Social Institutions. He was hungry, but in spite of that refused to eat meat on account of his religious belief regarding the preparation of animal food. Next day he returned to the Institution and said to the Officer:

Twe earned some money today. Take half of it in case another poor fellow is like I was last night. I'd like to help feed him.

If only we, who owe all we are and have to the mercy of God, could live in that spirit, what an increase of resources The Salvation Army would receive! It is not enough to praise Him with music and testimony in order that His work may be carried on. One of the most stupendous thoughts that can enter the mind of any one who loves God is that without our co-operation He cannot carry out His great design for the Salvation of mankind, consequently, large responsibility for our fellow-men is placed upon our shoulders.

It is, however, the more exalted motive of love which should prompt our giving unto the Lord. We love Him for what He has done for us: but, more than that, we love Him for what He is! The spotless purity of His life, His love for us, His majesty and power, the influence which He wields over us, enabling our lives to be in some degree noble, pure, and kind as was His, calls forth all the affection of which we are capable. We seek for means by which to show our love, and can find none better than by carrying on His work. Many are prevented from going out into the world and preaching His Name, but they can, with their money, send others. The widow's mite was of more value to the Kingdom than the money-bags of the Pharisees, because it was a definite addition to the world's love for Christ, whilst the wealth of the Pharisees only added to the corrupting influence of insincerity.

THE MEASURE OF OUR LOVE

The Salvation Army is approaching a great practical test of its love for Christ—and for man. Oh, that its passion for giving may have free outlet in every Officer and Soldier! Let us think upon all that Jesus Christ has done for us, measure our gift by our love for Him, and experience the deep joy which love finds in sacrifice.

BRAIN'S BALANCE WHEEL

BRAIN'S BALANCE WHEEL Using it unconsciously, we are apt to forget that the hrain is an extremely delicate mechanism which may be thrown off its accustomed track by anything out of the ordinary. The sense of balance is one of the functions of this mechanism which we have developed by constant use, and which we employ unconsciously. Sometimes we find that unusual surroundings impair its proper usage. Such, for example, is the effect of looking down from a high building when one is unaccustomed to heights. The eye notes the sheer drop into

when one is unaccustomed to heights. The eye notes the sheer drop into space and unconsciouly transmits a "fear message" to the brain, which, in turn, augments the trouble by disturbing the delicate fluid which acts as a "balance wheel."

As a result the person becomes dizzy, and is as prone to fall as if he had been whirled around, rapidly a number of times.

Farthest-North Hospital

One Doctor for 60,000 square miles

Keeping Out 70 deg. of Frost-Facing the North Pole

THE most northerly hospital in the world has recently been completed. It stands at Point Barrow, in Alaska, directly facing the North Pole, with the possible exception of an Eskimo hut or two, is the farthestnorth building on the American continent.

The hospital has taken over a year to build; it cost 35,000 dollars, and the expense of running it will be over 15,000 dollars a year. Although Point Barrow has a population of only nine white people, including the doctor and nurse in charge of the hospital, and about 450 Eskimos, the hospital is really to serve an area of 60,000 square miles.

TROPHY OF CIVILIZATION

Later it is hoped to send an assistant, or perhaps two, to help the doctor and nurse, and there is also to be a housekeeper and a porter. The doctor and nurse, and there is also to be a notation and equipment of this hospital are a triumph of enterprise and a trophy of advanced civilization. The materials were sent from the United States to Nome by steamship, and thence on small schooners to Point Barrow. The journey had to be made during the short summer, but even then the weather was treacherous.

Fierce storms assailed the small schooners, which became separated in a gale, and one was carried to the Siberian coast and damaged before it eventually reached its destination. The ships were to carry also 200 tons of coal for the use of the workers during the first year, but only 55 tons could be delivered, and the shortage of 145 tons led to considerable hardship.

ASTONISHING THE ESKIMOS

The building materials arrived at the beginning of September, 1920, and the workers were able to erect the framework of the building and get it covered up before the winter snows fell. Then they worked upon the interior structure.

On September 6 the foundations were begun, and six days later the big chimney was started. But when this bad reached a height of 30 feet a very severe frost set in, and, in order that work might continue, a great bonfire as lighted and kept burning round the mortar, which was used steaming The thermometer often registers 70 degrees of frost in this country.

Steadily the work progressed, to the astonishment of the Eskimos, who had never dreamed of anything so vast and stately. The hospital is built of wood and wood-pulp board. The main building is 70 feet long and 38 feet wide, and the basement rests upon ice. In the basement are two hot-air furnaces and an electric light plant.

WATCHING THE CHIMNEY RISE

If the Eskimos were astonished at the main building, they were amazed see the tall chimney go up, and when the electric light shone out for the first time they were struck dumb with fear. Very soon, however, their terror passed, and now their chief delight is to handle the switches and turn the light on.

The bospital is equipped with twelve beds, but it has accommodation for enty. The nearest settlements to Point Barrow are one 300 miles to the south, and another 400 miles to the east, so there will be little society for the doctor and nurse.

Who could withhold a tribute of praise from the little white staff who will labor in this lonely and inhospitable place to relieve the sufferings of a handful of natives scattered over a vast area of 60,000 square miles?

Shipping Greatly Increased

Despite many reactionary measures

The conspicuous events in snipping during 1921 were the large increase in tonnage in the face of reactionary rates, the spectacular drop in ship values, the slow downward movement of rates in all directions accompanied by an increase in idle tonnage to around 10,000,000 gross tons, the sale by the British Government of its share of ex-enemy ships, and in the United States the organization and activities of the newly appointed Shipping Board. Shipping Board.

The world's steam tonnage, exclusive of the United States vessels on the Great Lakes, rose to 56.7 million

gross tons in 1921, or 4.9 million within twelve months, and 13.4 million since the outbreak of the war. The 11.6 million-ton increase in United States ocean-going steamers accounted for 86 per cent of the world increase during the seven-year period. While the growth in tonnage is large, in view of the diminished ocean-borne trade of the world, the effective increase is smaller than the figures included the world, the effective increased 1.8 million tons between 1914 and 1921, and most of them, certainly the 706,000 tons belonging to the Shipping Board, will have to be scrapped.

HOW TO BE SAVED

HOW TO BE SAVED

THE Salvation of the Soul is the most important and great end of life. Whatever else you obtain if you lose this you will lose the entire purpose of existence. All the world's fame, honor, riches and possessions are as naught comparad with this pearl of greatest price. God tells us in His word that we are all sinners by nature. There is no way unto Eternal life only through Jesus, who says: "I am the Way, the Truth and the Life. No man cometh unto the Father but by Me." We must believe on the Lord Jesus Christ if we would be saved. Therefore, by repentance and the forsaking of sin and taking by faith the great plan or redemption we may enter into Eternal life. Thus saith the Saviour: "I am Resurrection and the Life. He that believeth in Me, though he were dead, yet shall he live." How long halt ye therefore?

The interests of your never-dying soul demand that you make a decision. "Now is the accepted time." Caivary's love as the balm for the sinner's wounded heart cries: "Today is the day of Salvation." The groans and cries of souls already lost warn the unconverted to be in time.

Sam had lively recollections of the rough skill of friend Bill Wylie, when he, Sam, was carried half fainting from loss of blood, into the bunkhouse with a huge gash in the fleshy part of his left leg, caused by the slipping of the axe which he usually wielded with such skill and effectiveness. In addition to which, good-natured Bill was the only man in the outfit that Sam thought it would be wise to awaken so soon after midnight.

Bill. the "Doctor"

A rough shaking and Bill sat up suddenly, staring into the startled face of Sam which appeared over the edge of the bunk.

"What's up now," he stammered in sleepy protest. "Why in creation—" "All right now, Bill, save all that 'till morning. I've got explanations a-plenty. Jest you roll out and lend a hand. 'Eres a job for your doctoring fingers."

By this time, Bill was on to the floor of the room and had caught sight of the motionless body by the stove.

"What's this 'ere, anyhow," he de-manded, at the same time turning the body so that the rim light of the smoky lamp fell on the features.

The men worked swiftly and silently, Sam rubbing the freshly gathered snow on the frozen foot, while Bill forced the neck of the flask which he had discovered in Dan's pocket between the tightly closed lips. At length a flicker of the eyelids between the returning consciousness, and presently the eyes of Dan McLeod opened to gaze in astonishment at the figure of Bill bending over him, flask in hand, and muttering—

Dan endeavored to raise his aching body, but fell back with a groan.

"Steady now son. Jest go easy inute. You ain't goin' to leave minute. You ain' jest yet, I rekon."

Jest yet, I reton."

Dan faced the second speaker, and saw Sam Hicks dragging the mattress and blankets from his bunk to lay them ou the floor near the stove, and then with a rough tenderness he was lifted on to this rude bed and covered with Sam's blankets.

As his consciouness had returned, his hand had reached involuntarily for his gun, an action instantly noted by both Bill and Sam.

"Nice leetle plaything you 'ave there, son," drawled the former. "Don't make no mistake and figer to use it up in these parts. Maybe you mistook this neck o' the woods for Arizony. Better give it to me for safe keepin'."

He reached out his hand for the weapon as he spoke, but Dan shook his head.

"Guess I'll keep it," he said in a voice which it seemed to him to come from a far distance.

"Jest as you say, son, jest as you say," replied Bill with a shrug of his shoulders, "but remember we use 'cm for ornament only in these parts."

Sleep Again

Sleep Again

Dan McLeod had been vainly trying to find his bearings. This was a bunkhouse, of that he was sure, and these men were of the woods. But what was he doing here and how had he arrived? His painfully aching foot brought slowly back to his mind his last recollection of the horror of the previous night and he shuddered at the remembrance. He had been lost in the woods; he had been having an argument with destiny; that was his last definite knowledge. To what place had his staggering feet carried him? Had le fallen in the snow and been discovered by these lumbermen? Where was Craig's Camp? Perhaps these men could enlighten him.

wont be a leavin' in a hurry by the look o' this foot o' yours."

The foot in question was causing Dan McLeod sufficient agony for him to realize that there might be some truth in Sam's conclusion.

The pain, notwithstanding, a shadow of a smile passed over Dan's face. He had fooled his friend, Destiny, after all. It must have been touch and go, bu't he had made the grade, and the thought brought a mensure of satisfaction to him.

"Is the foreman wantin' a man?" asked Dan, after a pause, "I was wantin' to get a job with this outfit."

"Oh, I rekon he can do with yer, alright," was the reply, "but yer wont be usin' no cant hook with this 'ere gang for a while, son," and, as if to close the conversation, Bill added: "Better have another drop o' this 'ere flask, and then try and sleep. You can interduce yerself in the mornin!"

An indescribable feeling of drowsiness was creeping over Dan McLeod's aching body, and in epite of his painful foot it was not many minutes befor his thoughts faded into indistinctness and he dropped into a heavy sleep,

"'e's off now, Bill," said Sam to his friend, "you better finish out your sleep, while I get that smoke I was after when this interruption struck us."

after when this interruption struck us."

Bill, nothing loathe, motioned to Sam to take one end of the mattress, and very gently, the sleeping form of Dan was raised and placed in Sam's bunk. This task completed, Bill climbed back to his blankets and was soon as fast asleep as Dan.

Sam, after replemishing the fire, drew his chair a little nearer to the stove, and watched the smoke curling from his cigarette in silence. Strange, he thought, why he should have been so restless that particular night.

"Bad job for 'im,' he muttered with a glance toward Dan, "if I'd bin sleepin' as hard as the rest o' the gang. Wonder who he is, anyhow," he continued, thinking audibly in a unttering undertone. That's two o' 'em who 'ave landed up in this 'ere outfit lately, 'ope this one's better'n the other," and the frown on his face indicated that his thought of the "other" was not of a pleasant nature.

The funcral service, which deeply impressed the large crowd of soldiers and friends who gathered, and also the Memorial meeting held the following Sunday, were conducted by Captain Sowton.

Mrs. Hatley has been a Soldier of the Medicine Hat Corps for four years, Though unable to take an active part in Corps work recently because of sickness, she has left a lasting impression by her testimony and courageous faith in God. The Comrades of the Corps seamestly pray that God will sustain Brother John Hatley and the five children in their becavement.

By Staff-Captain J. Merrett, The Trade Secretary

A MONG the many and varied phases of activity connected with the Trade Department in Winnipeg, and one that makes a fellow feel it is worth while, is the Book Section. The power of the printing press, as a medium for disseminating knowledge, is beyond conception, and it is possibly not surpassed. But, unfortunately, this power, instead of being preserved and employed solely and only for the propagation of healthy and helpful reading matter, hos been diverted into other channels as well, and to-day the market is flooded with all kinds of trashy and questionable literature, which must, from its very nature, exercise a most harmful effect upon the minds and characters of those who are poisoned by its perusal. This statement applies with equal fitness to both religious and secular reading. Indeed, many books bearing religious titles, and supposedly dealing with religious subjects are more damaging and damning in their effects than are those of a plainly secular nature.

How important it becomes, therefore, in the face of these facts, that

of a planty secular nature.

How important it becomes, therefore, in the face of these facts, that Salvationists especially should have some source from which to obtain regilable and wholesome hooks for their inspiration and instruction. I make bold to say that no other religious organization in the world is possessed of a more select and better assorted list of topical and typical volumes thon can be found on the shelves in the Salvation Army Trade Department, 317 Cariton Street, Winnipeg.

above, out or a similar character.

Talk about furnishing a Home Library! Surely the above list, in itself, provides ample variety, covering as it does all essential topics and dealing with practically every phase of practical religious instruction. Can there be any excuse for Salvationists neglecting to instruct themselves, with such a supply of literature at their command? Not more, I think, thou there is good reason for any of them seeking outside for other sources

Healthy reading produces healthy minds, and healthy minds develop healthy characters, and healthy characters find their expression in holy living, which spells HEAVEN here and hereafter.

Inving, which spells HEAVEN here and hereafter.

Unhealthy reading is like deadly poison, resulting in diseased minds, misdirected zeal and energy, and ultimately ending in spiritual death.

MORAL—Read Salvation Army Books. If you have not yet procured your supply, send in your Orders at once to the Trade Secretary, who will be very pleased to attend to your wishes.

Vancouver I: Adjutant Mrs. Merritt

A special Young Men's meeting was recently held in the Council Chamber of the Citadel. Commandant W. Carroll and Adjutant J. Merritt gave talks on matters that were personal, vital and needful. It was a most profitable and interesting meeting for all concerned.

A similar gathering of cirls and

fitable and interesting meeting for all concerned.

A similar gathering of girls and young women was held at the same time in the Young People's Hall, and eddressed by Mrs. Adjutant Clarke with gratifying results.

These gatherings united for a final testimony and praise meeting. There has not been seen at the Citadel for a long time such an inspiring sight as these sixty or seventy young men and women who, with happy faces, rose up one after another to give glowing testimony to what God had done for them. One young fellow said, "I started by making a bunch of promises yards long, but it didn't work. I couldn't keep them; but since I have been fully saved it's easy." A lassic arose and said, "My friends declared that if I got into uniform they would all leave me, but praise God, I have got more and better friends than ever."

The ten-day special "Ingathering Campaign' which is to bring to a close Commandant Carroll's stay at Vancouver I made a promising start on Saturday night. "Indoor Camp Meetings" had been announced, the Citadel being suitahly adapted for the occasion. An innovation was made at the first meeting of the campaign by having the indoor meeting first and the open-air afterwards. Quite a crowd had gathered in the Citadel, where there was much prayer and testimony. Promptly at 9.30 a company about 100 strong headed by a large representation of the Band, left the Citadel for a parade through the principal down-town strects. At one point a meeting was held, after which the march again formed up and reached the Citadel about 10.30. En route small handbills were distributed announcing the meetings. The effort nouncing the meetings. The effort resulted in large crowds all day Sunday. At night every available seat was occupied. The presence and Power of the Spirit was felt in a special manner and eight seekers came to the Cross. G. A.

Increase in Young Soldiers (?)
Rumor has it that the Y.P. Corps is getting infected with the same serm as the Semior War Cry Heralds and Young Soldier Brigade is to be formed. Who says we can only win as lead in War Crys? We are out to HOUBLE-UP and that means Young Soldiers as well as other things. Why not encourage the Young Soldiers as well as other things. CONVERSATION IN THE HOME

In too many homes conversation is a lost art, or one that has never been known. Evenings are spent in silent reading and meal bours in silent eating. Only when there is a visitor' is any attempt made to keep up a conversation, and lack of practise makes this a task evident to the visitor and embarrassing to the whole family.

Every household should cultivate the art of conversation. There is no better time for this than at meals. Bright conversation and laughter at the dinner-table is a hygenic blessing. It is a great aid to digestion. Food taken when one is discontented or irritated is hard to digest and often causes disorders. Let each member of the family "save up" something to say at the table which shall help to start a pleasant conversation. Do not try to confine the topic to someone's particular hobby. Give each one at the table a chance to talk about the particular thing that interests bim or her. All will thus be interested.

This definite aim at the moral progress of her offspring may or may not be consistent with their worldly advantage, but it will certainly tend to turn them out as noble men and women.

women.

Let the mother seek to know and to guide the child's thoughts.

In the formation of character we know how necessary is self-knowledge yet how very neglected; and certainly

In its early years the child must, in the very nature of things, be most a knowledge of that child is of the constantly with the mother, and most completely under her influence. This consideration alone places her on a plane of responsibility above all others.

How, then, may the mother dicharge her high responsibilities?

Let her deliberately settle upon standard of training for her child's maturer years.

Let the mother teach her child to look to something higher than itself.

To obtain this end the mother must secure for herself the child's respect. God's plan is that the child should see the moral virtues in action in the parents.

parents.

Above all, the mother abould seek to bring the child to a knowledge of God.

The children of every nation and of every clime need a Divine Helper, if they are to live up to the highest possibilities innate within them; and it is the mothers of every nation who have the first and greatest responsibility for developing the ethical and spiritual side of their children's nature.

OLD CORKS

OLD CORKS

Bottle corks are always useful as cleaners. For cleaning plate, a cork dipped in a little moistened powder is excellent for rubbing the tarmished parts. Egg-stains on spoons disappear when they are treated with salt applied with a cork. Marks on aluminium ware can be removed with a cork and a little sand. In most cases stains on polished wood can be rubbed out with a seft dry cork which has first been rubbed over the inside of a banana skin. A dry cork is also good for cleaning spots on paint or wall-paper.

NOVEL CAKE-FILLING

A paste made of a mixture of vari-ous dried fruits moistened with a little syrup makes a nice cake-filling. Grushed nuts may be added if desired. This paste can be shaped into squares or balls and dipped into melted choco-late, and you will have a tasty confec-tion.

HEDGEHOG POTATOES

Boil the potatoes until absolutely soft. Mash, and mix with a little milk. Set aside to keep warm. Cut two large potatoes into straws, and fry in deep fat. Heap the mashed potatoes in a flat dish to resemble a long roll, stick the fried potatoes all over it, and decorate with sliced hard-boiled eggs and parsley.

HEAVYWEIGHT VS. LIGHTWEIGHT As Sir Q. perused the above list he stroked his chestnut beard and grinned a grin. Often he grins and bears it—this time I say he grinned a grin. He had visions of two D.O.'s—one a corpulent heavyweight and the other of narrow slender proportions—each one fighting hard to keep out of the Tail End Place in the Divisional War Cry Statistics. It is true this week the slender party rides in the caboose, but it is interesting to note that three Corps of his Division take a jump totalling 115 copies, while our heavyweight friend rises but 25 copies.

NORTH SASKATCHEWAN'S AVALANCHE

Well, it's a long time since we heard much from Northern Saskatchewan anyway. They say that the tread of a chamois foot may eause an avalanche, so now that P. A. started things moving two weeks ago, North Battleford, Yorkton and Melfort follow this week—something startling may follow.

SUGGESTIONS

Why not be the first division to report that every Corps is circulating 100 or more Crys weekly. Come on Humboldt!

It would take about 100 more copies to immortalize the name of Saskstoon I and leave Vancouver I in the dim and distant somewhere—that is, we hope at least somewhere! Fancy Saskatoon I in a much smaller population disposing of as many copies as the leading Coast Corps. Fancy it, I say! And incidentally, if Saskatoon I acts upon suggestion—then our heavy-weight will grace the caboose next week.

STUNTS ON THE WIRE

Capt. Kaighen is not a tight-rope walker but she did a rattling good stunt on the wire this week. A telegram just received increases the Kelowna order, lifting the Corps out of the last position in the B.C. Division and placing it in the 100 group. Pleasant breezes are blowing from B.C. these days—although there is a famine in the Centre of the Big City.

Now if every Corps taking half a bundred War Crys would follow Kelowna's lead! Live places like Swan River and Innisfail for instance.

ANOTHER GOOD MOVE

Ensign Kitson also does a good thing this week by increasing from 100 to 175. There is some "battle" left in North Battleford after all. Guess the blonde boy learned those tricks down where they grow Bermuda onions.

RESTORED

Now that the doughty leader of the N. B. C. forces is up-and-able we should hear from his splendid band of workers. It's a mystery to us why no War Crys are ever circulated in Metalakatla, Ketchikan, Andimaul, Glea Vowell, Port Simpson and other villages in that district.
